RAGS FOR PAPER.

The consumption of rags in the manufacture of paper in this country exceeds all the conceptions of those who have paid but little attention to the statistics of importation, for it is from abroad that we derive our principal eteck, and there is reasonable alarm existing among paper makers and printers that the fountain of supply may fail before the ingenious inventors of the world have per-fected the art of making good paper from other substances than rags; for instance, straw of grain, flax, meadow-grass, or the fiber of bark of plants and trees, or soft fibrons woods. It is supposed by some that paper can and will be made from the straws of the long leaf, Pinus resinosa, as some German manufacturers have succeeded in freeing the leaves of their resin, leaving a substance which they call "pine wool." If this substance should be found to answer better than oat-straw, on account of its stronger fiber, it will be quite as cheap; in fact it will cost nothing but the labor of collecting in the immense pine forests of the Southern States. There are numerous fibrous plants which may be cultivated to afford material for paper, among which the okra plant would perhaps give the largest yield per acre.

In the meantime, while we are getting ready to begin to use some other substance for paper, let us glance at the quantity efrags imported in the last four years, and the countries from whence we obtain our supply, with the cost. The following table contains all the particulars:

This makes a grand	total of	NINETY-	SEVEN MI	LIONS

EIGHT HUNDRED and FORTY-SIX THOUSAND and THIRTY-FIVE pounds of paper rags imported into this country in four years at a cost of THREE MILLIONS TWO HUNDRED and SIXTY-TWO THOUSAND and NINETY DOLLARS, averaging three cents and a third a pound.

In 1850 we imported rags from nineteen countries; in

1852 from thirty-two, which seems to have arrived near the ultimate limit, as we were only able to add Peru to the list in 1853.

Italy seems to be the great source of supply. In 1850 we obtained nearly half as many pounds from there as from all other places, while the amount paid exceeded half the whole sum. In 1851 the quantity and price of Italian rags only exceeded one-third of the amount by a triffe. That is the only year in the four that Prussia and Denmark furnished any rags. Holland, British East Indies, France on the Atlantic, Mexico, are only in the tables of 1850. Gibraltar and France on the Mediterranean only appear in 1852.

The point most worthy of note is the regular falling off

in the receipts from Italy. Thus we have ten millions, nine millions, seven millions, four millions pounds per annum. It is this that has driven dealers to scour all other countries likely to afford the necessary supply. In this they succeeded in 1851, gaining a little over five millions of pounds upon the year previous; but the next year they fell back seven and three-quarter millions of pounds; and notwithstanding the very largery increases, demand for paper within four years, the imports of 1853 are only a trifle over two millions of pounds more than 1850. One thing in the above table strikes us as somewhat curious; that is, that we import rags largely from England; and we see by her Custom-House returns that the imports into that country last year were 9,687 tuns-21,698,880 pounds—and her exports 2,462 tuns—5,414,880 pounds. Our imports from England the same year were 2,666,003

The cost per pound of our imported rags has been as follows: 1850, 3 61-100c.; 1851, 3 46-100c.; 1852, 3 42-100c.; 1853, 4 31 100c. This of itself is sufficient to show the advantage if not the necessity of providing a substitute for foreign rags out of which to manufacture the vast amount of paper used in this country. Think of it, furmers and artisans, upward of \$800,000 a year sent out of the country to purchase rags. There certainly must be a substitute, and the scener it is fully developed and brought into general use the better.

MORE DURHAM CATTLE FOR OHIO.

The Ciarke County (Ohio) Importing Company, lately received per ship F. W. Baily, at Philadelphia, ten bulls, twenty cows and heifers, and a lot of Cotswold and South-Down sheep, the whole costing upward of \$20,000, besides freight and other charges. Some of the bulls cost 150 to 200 guiness each. One died on the passage. The selection was made by Dr. Watts and Mr. Waddle, two experienced breeders, and original members of the Ohio Com

pany, which made importations twenty years ago.

In this lot there are eight which were purchased at Mr. Wilkinson's sale, at Lenton, many of them very superior specimens of the breed; three very promising animals from Mr. Pawkes herd, at Farnley Hall; a fine white bull, called "Medalist," bred by Mr. Torr of Aylesby, which attracted a good deal of attention—this animal is closely allied to the blood of Mr. Booth of Warlaby; Mr. Torr also sold them a bull, cow and heifer; there were four good specimens from the herd of Mr. Ambler of Watkinson Hall, Halifax, besides others bred from the stock of Lord Feversham, Sir T. Cartwright, Messrs. Birchall, Clarke, Dudding, Mitchell and Wood, all English breeders; three splendid bulls, purchased at the Royal Dublin Show, (two of them winners of the first prize in their classes.) which were bred by Messrs. Farrel, Lee, Norman and Topham; there were also several promising yearling heifers from the herds of Messrs. Barnes and Chalener, colebrated breeders of short-horns.

A bull one year old last January, weighs sixteen hundred

We presume this lot will be sold at auction as usual, and

thus distributed over the State.

LIFE AT A WATERING PLACE .- The Syracuse Republi

can lets a correspondent perpetrate the following ill-natured growl at the belles and beaux who are "enjoying " life" at Saratoga: "The hotels range about as usual: at some of them the

"The hotels range about as usual: at some of them the waiters still remain an unmitigated nuisance, and feel themselves insulted if looked at (inquiringly) for less than a quarter. The 'United States' is fashionable—'Congress' 'Hall' quiet, and 'Union Hall' gay, social and comfortable. Many distinguished guests are staying at this house, and the exertion of its experienced proprietors gives universal satisfaction. The tables are excellently supplied. The town boasts at present of a surplus of ladies, but I have not seen a dozen who can lay claim to beauty, and such a thing as a belic—a beauty, bright-eyed, with a brighter wit—whose very presence is a fascination—why there is no such woman at Saratoga. The young bloods think this is 'dem'd dwoll,' and blush away their sweetness in native diffidence, sighing for Madeira. Natchez and New-Or-leans bear off the palm of beauty; New-York is waiting for reenforcements from the rural districts—while Philaphia is distanced in everything but age and ugliness. The town is not more than half full, and half of those go about feeling for the cholera. There are no amusements but dancing, and the hop at the United States on Thursday night broke up after two sets. Too aristocratic to dance!"

The weather yesterday was tolerably pleasant, though at times very hot. The rain ceased about 10 A. M., hav

PUBLIC MEETINGS.

PUBLIC MEETINGS.

BOARD OF ALDERMEN—SPECIAL MEETING.
TUESDAY, July 25, 1851.—Present—NATHAR C. ELY,
Esq., President in the chair, and a quorum.

The Board met in pursuance of a call made by his
Honor the Mayor, and on a request of the members constituting a quorum, to take action chiefly on sundry Assessment Lists, from the Board of Councilmen, and which
were for the following named work: For regulating and
setting curb and gutter in Thirty minth-st., from Second to
Third avs. Building a sewer in Mott-st., from Pell to
Walker-st. Building a sewer in Forty-second-st., from
Lexington to Fourth av. Flagging sidewalks in front of Nos.
103, 105, 107, 109 Mercer-st. Building sewer in Twentysecond-st. Building sewer in Mercer-st. For regulating,
Acc, Fifty-third-st., from Broadway to Tenth-av. Building sewer in Forty-sixth-st., between Fifth and Seventhavs. Building sewer in Bowery, from Rivington, to hity
feet south of Stanton, which were severally concurred in.

Also, a Report of Committee on Sewers, in favor of
huilding a sewer in Laurens st., between Spring and
Bleecker-sis. Concurred in.

Also, Report of same Committee, in favor of authorizing the Croton Department to re-let the work for sewer
through Forty-minth-st., from East River, to and though
Second-av., Fifty-third-st., to Fifty-sixth-st., and to compromise with the executors for the labor performed by the
late contractor, who died shortly after he had commenced
the work. Concurred in.

No other matter being before the Board, except that
contained in the call for the meeting, the Board adjourned
until Monday, 7th of August next.

MEETING OF THE TEN GOVERNORS.

MEETING OF THE TEN GOVERNORS.

MELTING OF THE TEN GOVERNORS.

The regular meeting of the Governors of the Alms House was held yesterday afternoon, at their rooms in the Rotunda, the President Gov. Draper, in the Chair. A quorum not being present, no business of importance was transacted. The requisitions show the following number of persons remaining in the various institutions under the charge of the Governors, for the week ending July 22:

Bellevue Hospital, 654: Lunatic Asylam, 605: Alms-House, 997: Penitentiary, 487; Penitentiary Hospital, 437; Work-House, 792; Smail Pox Hospital, 7; Randall's Island, 765: Randall's Hospital, 225: City Prison, 231—Total, 5,200. Increase, 127. Number remaining July 8, 5,073; Admitted from sth to 22d July 1,847—Total, 6,320. Died, 78; Discharged, 1,467; Sent to Penitentiary, 166; Sent to State Prison, 9—Total, 1,720. Remaining, 6,200.

MARINE AFFAIRS

THE STEAM-TUG MERCURY.

The Mercury is a very fine soa-boat, entirely new, has a powerful engine and a staunch hull. She has an engine 30 inch cylinder, 8 feet stroke, a No. 5 Worthington pump to pump out vessels in a leaking or sinking condition, and a hoisting engine and apparatus for discharging vessels ashore, &c. Her hull is 131 feet long, 22 feet beam, 71 feet hold, measurement 250 tuns, built by Mr. Wm. Coll yer, Greenpoint; her wheel is 22 feet in diameter, 54 feet face and twenty-eight 18 inch buckets. She is fitted up in compliance with the existing passenger law, with life preservers, life-boats, &c. Her owners are Messrs. Livingston & Rogers; Captain Richard Yates; Engineer, Wm. Skidmore, late Chief Engineer of the U. S. Mail Steamship Company; Agent, Captain A. J. Depeyster, No. 31 Broadway.

The steamboat Pilot will be launched from the yard of Messrs. Isaac C. Smith & Son at Hoboken, New-Jersey, at 10 o'clock this morning. She is 112 feet long, 22 feet beam and 71 feet hold, measuring about 200 tuns, and is owned by Wm. W. Dougherty, Esq. and Capt. John Thompson, who design her for heavy towing purposes.

The Pilot is built upon the "elliptic" principle under the patent of James K. Howe, Esq., differing frem other versels in her model, every line being elliptic. She is built very strong for sea service, being strength-

ened with extra keelsons, and bilge streaks; and having diagonal braces the whole length of her frame. Messrs. Birkbeck, Furman & Co. are to furnish her with a powerful engine.

WRECK OF A BRIG AT SEA. Capt. Lesloope, of the brig Henriette, arrived here yes erday morning from Bromen, reports that on the 6th of July, in lat. 430 45', he fell in with the wreck of a brig. She was full of water, painted black, with a white streak, both masts gone, but her bowsprit was stending. As her stern was under water, the captain could not make out

Capt. Whitman, of the ship St. Patrick, at this port from Liverpool, reports that on the 7th inst., in lat. 41° 6', lon. 47° 16', he saw two large icebergs, one of which was three miles in length.

STRUCK BY LIGHTNING AT SEA-VESSEL ON FIRE. The schooner Cataract, Capt. Francis, arrived vesterday morning from Savannah, was struck by lightning on the 20th inst., in lat. 32 35, long. 77 57, during a squall. Two barrels of far were set on fire in the lower hold, but the flames were extinguished without material damage to the vessel. The schooner had a narrow escape from total destruction, as several barrels of turpentine were stowed near the burning tar. These the crew succeeded in remov-

WRECK OF THE BARK JAMES HALL. PHILADELPHIA, Tuesday, July 25, 1854.

A letter from Cape May states that the bark James Hall, from Trinidad for New-York, sprung a leak on the 20th, and it gained so fast, despite the exertions of the crew, who three overboard a portion of the carge, that they finally run the vessel ashore on Sunday Mile Beach, where she now lies with six feet of water in her hold. She will be a total wreck, but her cargo of molasses will be saved.

PROGRESS OF THE CHOLERA.

NEW-YORK CITY. Up to July 25..... Monday, July 24..... Tuesday, July 25..... IN BROOKLYN.

Yesterday morning 16 cases and five deaths were re-ported to the Board of Health. During the week ending 24th June 27 patients were admitted to the Cholera Hospital, 19 died, 9 were discharged recovered, and 8 remained at date.

IN WILLIAMSBURGH.

Two cases of cholera were reported to the Board of Health yesterday, both fatal, viz: Miss John Haufeim, No. 144 Johnson-st., and Mrs. Velkel, corner of Graham and

Montrose-avs. Yesterday afternoon about 3 o'clock, an unknown Gorman died of cholera while being conveyed to Fiatbush Hospital. It appears that he was taken ill in front of Mr. Charles Beck's house in Bushwick about noon. Mr. Beck was conveying the man to the Hospital, when he died while coming through First-st. The body was taken to the bell tower in Fourth-st. Deceased wore a green frock coat, grey weelen pants, a white cotton shirt and a cloth

Three or four cases of cholers, or of diseases closely resembling cholera, were rumored yesterday. It was said that a man employed on Monday in paving in the streets in the Fourth Ward died on Monday night of cholers.

A passenger who crossed over from New-York to take the cars to Newark at 9 o'clock on Monday evening, was attacked with cholera symptoms and was taken back to

New-York. It was rumored that a canal boat captain and another person had died of cholers, but no definite information could be obtained.

A German, residing in William-st., New-York, was prostrated at the corner of Greene and Grand-sts. yesterday by an attack of colic or cholers. He was conveyed to his home in New-York.

CITY ITEMS.

The Lectures on Polish Nationality which were advertised to be given on the 27th of July and 1st and 6th of August, have, in consequence of the extreme heat of the weather, been postponed for a few weeks. Notice will be issned hereafter of the time and place.

The Centennial Commencement of Columbia College will be colebrated at Niblo's Theater this morning. The exercises commence at 10 o'clock.

The Williams testimonial comes off to-night at the Broadway Theater. A great number of the profession have volunteered, and an attractive bill is put forsh, as will be seen by referring to our advertising columns.

The man to whose determination the public owe the arrest of the villain, who attacked Dr. Dewees, was Henry Malone, one of the required hackmen of the Metropoli-

quently joined by Councilman Consver and Mr. Mst. Green.

Jed in Late Villa III

places great reliance. He seized him first and was subsa-

Use Correnas.-The papers are everywhere arrive tha free use of copperas as a disinfecting agent. It is a cheap article, costing only three cents per pound, and can b found at the druggists, and many of the larger grocery stores. A couple of pounds may be dissolved in ten quarts of hot water, and the solution poured into sinks, gutters, cess-pools, and all other filthy places, with good effect.

PERSONAL .- Among the arrivals at the different hotels

Presonal.—Among the arrivals at the different hotels we notice the following:

At the Invise House—Hon. T. E. Lawson, N. H., Dr. H. F. Montromery, Racharder, Capt. E. Downer, Conn., Capt. L. Pritch and Waterlury, Hugh McHenry, U. S. Coast Survey, Br. Coshwans, New Orleans, H. C. Rumsey, Badhot, A. Bradford, S. Louis, Wom. H. Comstock, E. ston, Edward Y. Stork, Gounsies, T. Lass, John Monsett, Machin, Georgia, N. Tayler, Allerany,

At the Matheropolatian—Col. Robe, Foreyth, Va., E. Mend. St. Louis, Col. W. V. Berkalow, Chelmont, S. Calhoun, Philadelphia, W. A. Harney, La.; M. H. Arnet, Emilies, Hon. E. Alim Tenn. C. H. Visientine, St. Louis, F. Newcomb, Louisville, A. Wissel, d. U. S. N.; A. Gwin, U. S. Army, H. E. Prenilss, Banger, F. H. Clamberini, Als.

At the Aston Heitze—Capt. McConnell, U. S. Army, Fire Heart Water, I. was, J. V. Aver, Lemoha, N. F. Potter, Frondence, H. H. Crittenden, Kentheky, T. B. Washington, Virginia, Dr. Holbrock, Charleston, M. L. Sayner, Canada, R. W. Vaser, Arbons, J. F. Norrie, St. Louis, B. L. Stanton, New Orleans, At the St. Nicholas-idon, E. W. Leavenworth, Albenry, Hon. H. Baldwin, Systems, J. F. Hemmick, Valgarsian, J. Shelion, Pott Lawsey, L. L. Stanton, New Orleans, A. G. Adams, Nashville; S. Futbam, Victobargh, P. F. Le Bagel, New Orleans, L. G. Feitcher, Rio January, S. Blacoland, Whymouth, At the Charleston—G. S. Cumming and family, Savannab; F. A.

New Orleans; J. C. Fistcher, Rio Januto; S. Blanchard, Wiymouth.

At the CLARENDON-G. B. Camming and family. Savannah: F. A.
Benjamin, New York; Lucius Dill. Greends. W. I.; W. C. Larrelle and W. H. Lurulle. Indians; Robert Turner, New Orleans; Adothes hipman and indy. New York; F. G. Tuckerman, Mans; F. S. Holford, London; W. T. Blodgett, New York; J. P. Derby Conn.; J. Buckincham and J. R. Sanabery, New-Jersey.

At the Howard Hotel. J. H. Sharkeford, Arkansas; A. L. Sken, do., Wm. Wylde, Detroit; W. G. Gordon, Boston; Jodge Williams, Mississippi; Jas. A. Lundy, do.; P. C. Tucker, Jr., Texas; D. B. Canfield, Philadelphia.

D. B. Canfield, Philadelphia.

IMPOSITION.—A man came to my office on Thursday last, who pretended he had just arrived in the steamship Philadelphia, and that some articles had been forwarded to me by some friend in New Orleans, and that they had been delivered to the wrong person by the ship's carman, but as he had been acquainted with me in years past, and had employed me professionally, he had discovered the mistake and secured the goods, paid the expenses. Ac, and would order the carman to bring them immediately. He said his name was Appleton Bigalow of Beston, and I recognized him as one I had seen some years since in Park-place. I therefore paid then the freight on the goods, but have never received them. Perhaps he is playying the same trick on others, and you will confer a benefit on them by publishing this document.

July 25, 1854. J. W. CRANE, M. D., No. 47 Bond-M., N. Y.

FATAL FALL.-Coroner Gamble yesterday held an inquest at the New-York Hospital upon the body of Wm. Hanley, a native of Ireland, 25 years of age, whose death was caused by a fall from a fifth story window of the house No. 52 Avenue D, on Saturday night last. The Jury rendered a verdict of accidental death.

DROWSED WHILE INTOXICATED.—Coroner O Donnell yesterday held an inquest upon the body of Barney, a poor incerniste, who accidentally fell into the dock at pier No. 36, E. R., on Monday night, and was drowned. He was a native of Ireland, about 50 years of age.

FOUND DROWNED.—The body of an unknown man, about 38 years of age, was yesterday found drowned at the South Ferry deck. An inquest was held by Coroner O'Donnell, and no marks of violence being found, the Jury rendered a verdict of death by drowning. FRIGHTFUL ACCIDENT,-John Hauley, a laborer, while

assisting yesterday in discharging a cargo of iron from the ship Columbia, lying near Fulton Ferry, a heavy bar of iron slipped from the sling and struck him upon the head, knocking him senseless to the deck and causing a com-pound fracture of the skull. He was conveyed as soon as possible to the New-York Hospital and placed under the care of Dr. Derby, who considers his recovery very doubtful.

Accident from Machinery.—John Monroe, an engineer on board the steamboat Massachusetts, was engaged yesterday in oiling the machinery, when it was suddenly set in motion, and his leg was caught between the crank and connecting rod and frightfully crushed. He was released as soon as possible and taken to the N.Y. Hospital, where it was found necessary to amputate the limb. THE ASSAULT UPON DR. DE WEISS .- Geo. Williams,

The Assault upon Dr. Dr. Weiss.—Geo. Williams, who was arrested on Sunday morning for assaulting Dr. Dr. Weiss of the corner of Bleecker-st. and Broadway and for attempting to pass counterfeit money, was yesterday brought before Justice Clerke and was identified by Dr. Aionzo S. Ball of No. 43 West Eleventh-st., as the person who, on last Saturday evening called at his office and purchased some medicine, tendering in payment thereof a \$20 counterfeit bill and receiving good money in change. An affidavit to this effect was made by Dr. Ball and the prisoner was recommitted by Justice Clerke. We give a copy of the counterfeit:

Bill of Exchange. \$20. Nov. 16, 1639
The Homnins
Farmers' Bank of Seneca County will pay \$20 to
D. Bens or Bearer-twelve months after date. Value received.
[Signed] J. J. Fenton Cashier. J. Wickell, President.

ARREST FOR BURGLARY AND ARSON IN THE FIRST DEGREE.—About half past 3 o'clock yesterday morning, a fire was discovered in the confectionery of William Keller, No. 108 Charles-st, and immediately extinguished, damage about \$100. From the appearance of the premises it was apparent that some parties had entered the store, stolen nearly all the confectionery and set fire to the premises. Captain Ackerman of the Ninth Ward Police suspected the occupants of an adjoining confectionery, a rival establishment, and upon examining their place, found nearly all the articles stolen from the first-named store. He then arrested thenry and Harriet Thompson, the occupants, on suspicion of being the guilty parties. The Fire-Marshal was then sent for and from the evidence collected by him it appeared that the rival confectioneries had been Marshal was then sent for and from the evinence consecuted by him it appeared that the rival confectioneries had been at variance for some time. Justice Clark, before whom the suspected parties were taken, committed them for examination. There were several families asleep in the building at the time it was fired, and among them that of Mr. Wm. Holme, who was awakened by the smoke entering his room. The building was a frame one, and had in it about \$7,000 worth of property, insured in the Market Insurance Company of this City and the Atlantic Insurance Company of Brooklyn. Henry Thompson, one of the accused, was seen soon after the fire was extinguished, placing the stolen confectionery in his jars and cases and from this circumstance suspicion first rested upon him.

DISCHARGE AND RE-ARREST. - Moses Ehrich, whose arrest we noticed on Monday on a charge of feloniously re-ceiving stolen goods, yesterday appeared before Justice Beebe upon a habeus corpus, and in consequence of some error in the commitment, the Judge ordered his release. As he was leaving the court-room, however, he was met by officer Norris, who rearrested him on a new warrant and conveyed him to the Tombs.

and conveyed him to the Tombs.

Arrest of a Young Swindler.—Edward Size, a youth 17 years of age, was yesterday arrested by Officer Greig, of the Sixteenth Ward Police, charged with obtaining goods by falsely representing that he had been sent for them, and by presenting forced orders. It is alleged that quite recently he called at the jewelry store of Mr. Win. Wise, No. 567 Sixth-av., and informed Mr. W. that he had been sent by the captain of a ship who was acquainted with him. (W.) for two watches. Mr. Wise, fearing that something was wrong, went with Saze to see the captain, but on their way Saxe told him he had a call to make, and requested that he would wait for him a few minutes. Saxe then went directly to the store of Mr. Wise, and told his wife that it was all right, and that her hasband had sent him for the watches. They were given to him, and he him for the watches. wife that it was all right, and that her husband had sent him for the watches. They were given to him, and he started off to Hoboken, where he sold one of them. The other he afterwards disposed of in the city. When arrested he was in the act of endeavoring to obtain goods from another party by means of a forced order for \$10. The two watches were recovered by the officer, and the pris-oner was locked up by Justice Stuart for examination.

Shor Litting.—A respectable appearing woman giving her name as Mrs. Armitage, reading in South-Sixthsu, near Eighth, was arrested on Monday evening by Constable Miner on a charge of stealing some laces valued at \$5 from the store of Mr. Rese, No. 59 South Seventh-st. The articles were found in her possession. Gave bonds to appear for trial.

LAW INTELLIGENCE

SUPERIOR COURT—IN CHANGERS—Before Judge OAKLEY, Judge DURE also being present.

CASE OF ALFEANDER KYLE, JR.

Hariem Railroad Company agt. J. K. Jr. and Justee Earle.
Suit for injunction restraining Mr. Earle (father-in law of Mr. K.) from disposing of a house and lot made over to him by K. and wife since the discovery of alleged frauds by Mr. K. Secretary of the Company, as to transfers of stock, and prohibiting K. and E. from disposing of any stock, &c.; also for judgment against Mr. K. for \$240,000, value of stock alleged to have been fraudulently transferred by him, already referred to.

Mr. K. was ordered, as already stated, to be held to bail in \$100,000, which he had not yet been able to procure.

Mr. K. was ordered, as already stated, to be held to bail in \$100,000, which he had not yet been able to procure. He was arrested by the Sheriff on the order directing his arrest, but not placed in prison, being retained in the pri-vate custody of one of the Deputy Sheriffs, where he still is. He was brought up vesterday on the motion of his counsel, Mesers. Talmadge and Frye (ex-Recorder and Councilman,) that he be discharged from enstody, or the hall reduced, and that the injunction be dissolved. [He is a young man, having the appearance of about 27 years of age, tall in stature, straight features, florid complexion, is a young man, having the appearance of account of age, tall in stature, straight features, florid complexion, dark brown hair, and whiskers nearly black, and dark, or what is called hazel eyes. He wears his whiskers quite full, with the exception of the upper lip, and is what is called a showy or good looking man. His air and manner are those of confidence and ease. Although look-readers are those of confidence and ease. ng so young he must be some considerable older than ppearance would indicate, as he has been Secretary of t

appearance would indicate, as he has been Secretary of the Company for some seven years. He was, previous to that, it is said, a clerk in the broker's establishment of Shepperd & Co., Wall-st.]

Mr. Talmadge, in presenting argument on the motion, contended that the affidavit and undertaking on which the order were granted, were defective and void, by reason of the one being sworn to before Mr. Sanford, one of the attorneys for plaintiff, and the other certified to before him. Also that there is not enough in the affidavit to entitle the Harlem Company to enter the suit; and in that respect the erder of injunction and to hold to ball were void. Also that the act of Mr. Kyle, even admitting the affidavit to be true, does not bring the case within the statute in relation to fraud or breach of trust, &c. ion to fraud or breach of trust, &c.
The affidavit states, Mr. T. read, that the stock of the

The affidavit states, Mr. T. read, that the stock of the Company consists of 75,000 shares [of \$50 each.] under the law of 1831, and 30,000 shares mader the law of 1848, latter entitled to a special rate of dividend, &e.; that when said Kvie entered the service of plaintiffs he was a young man of no property, and while in the service of said Company he did not receive a salary more than adequate to his current regular expenses; that they have discovered that during the last two years he has sold and transferred 3,500 shares of the old stock of the Company and 1,300 of the Preferred Stock, and applied the proceeds to his own use, and that he did so by using the blank certificates intrusted to his care as Secretary, &c.; that the par value was \$2.40,000, and then goes on to say that he is possessed, as they believe, of a large amount of personal property, including horses, wagons, household turalture and money, and also that he was possessed of a house and lot in Thirty-first-st, which he has transferred to his father-in-law, &c. A.c. Talmadge contended that the affidavit was loose

and defective, asserting, in some cases, what they could not know, and in others being too vague; and it was not a document that would authorize an order to hold to ball the point that he did not receive a salary more

As to the point that he did not receive a salary more than adequate to his regular current expenses, that was a broad assertion. Mr. T. said, but allowing that it was true, it only shows the impolicy in all our Bauks, Insurance and Railread Companies, and other public institutions, of giving low salaries whereby, if the parties have not sufficient to live, they are tempted to steal.

[Mr. Talmadge, when in the Board of Supervisors as Recorder was always in favor of high salaries for the various City and County departments.] Mr. T. alluded to the fact of Mr. Robert Schuyler having been President and then the presidency being transferred to his brother; he referred to a want of attention on the part of the Directors, and the great amount of business which devolved

por defendant. He also contended that there was no proof of Mr. K. converting the proceeds to his own use, lie also intimated that a good deal of the operation had een in favor of Mr. Robert Schuyler and he holds Mr.

Leen in favor of Mr. Robert Schuyler and he holds Mr.

S. a recurities therefor.

In respect to the value of the stock transferred, Mr. Talmeds referred to the fact that its market price at the time must have been far below its par value, the amount of \$240,000 being based on fall-priced stock, while the Harlem, it is known, has been at a large discount. There might be a charge, Mr. T. said, for Crystal Palace stock at \$100 per share, while at the same time it would not be worth \$5. He also insisted that if any stock had been transmignedly transferred, there is great doubt of the Company being liable for it, and therefore they cannot come in as creditors. He contended, if the order were not wholly wearded, that the amount of bail should be greatly reduced, and the motion allowed.

Mr. Sandford replied: In relation to the making of the affidavit before him and certifying to the undertaking, that was done before the suit was commenced, and therefore is perfectly regular. In regard to the affidavit the regret of the Vice-President, in looking into the matter, was that it could be so made positive, and the Company had talked of assuming the stock, particularly as there would be great difficulty in distinguishing it from the other stock. As to the transaction between Mr. Robert Schuyler and defendant that related wholly to New-Haven stock and not to Harlem. Mr. Sandford contended that the motion should be denied.

The Court appeared to intimate that the decision would depend upon the fact whether or not the Company can be considered liable, and therefore the creditors of defendant. Decision reserved.

Decision reserved.

KINGS CO. COURT OF GENERAL SESSIONS—Before Judge Moore and Justices Stringerly and Francis Fitzgerald and Feter Shay, indicted for assault and battery with intent to kill, were placed on trial. The offense as charged, occurred in Greenpoint village on Sunday evening, the 28th of May last. The complaining witness, John Foets, being placed upon the stand, testified to the effect that between s and 9 o clock defendants came to his store where he keeps liquors and candies for sale. Fitzgerald bought a cent's worth of candy and paid for it. Shay bought two cents worth of candy and paid for it. Shay bought two cents worth of the control of the

	THE RESIDENCE OF THE PARTY OF T

Sales of Stocks at Philadelphia . . . Tuesday, July 25.

There was a buoyant feeling at the Stock Board this morning, and the improvement continued at the Second Board. Confidence is gradually returning, and although a large number of operators are absent, yet there are considerable orders in the street from outsiders, who are tempted by the comparatively low quotations now ruling. The most marked improvement was in Michigan Central and New-York Central. The former improved 31 \$\vec{p}\$ cent., of the latter the sales were about 2,500 shares, the market closing at 88, an advance of 4 P cent, on the lowest price of yesterday, and placing the stock where it was when the dividend came off. We think the action of the Directors in the matter of the dividend is gaining friends. There is some reason to believe that the dividend will be paid sooner then is generally anticipated. Eric closed at 49, an improvement of 1 & cent; Reading improved | F cent. There were rumors in the street of the resignation of Mr. Tucker but we could not trace them to any authentic source. Nicaragua improved | P cent; Cumberland was about the same as yesterday; Panama sold at 93 in the morning and at 95 at the Second Board. The Western Roads generally are heavy. In Bonds there is not much doing and prices are generally without improvement. At the Second Board the bears were making some operations based on the shipment of gold to-morrow. The inc amount of the over issue of the Parker Vein Company had also some effect. The amount of stock affoat is now stated to be 160,000 shares, the original smount being only

0,000 shares. In Sterling Exchange there was considerable firmness in the morning, but the supply afterward was larger and rates are | \$\psi\$ cent. lower. First-class bills were sold at 91, although leading drawers were asking 91 P cent. France 5.15@5.15%. All continental bills are dull.

In Freights there is rather more doing. To Liverpool, 11,000 bush. Grain, 3 d. in bulk; 500 bags Cotton, 4d.; 70 bales Sea Island Cotton, 5-16d.; 2,500 or 3,000 bbls. Resin, 2 500 bbls. Flour, 1/21/3; 1,000 bbls. Lard, 12/. To ndon, 1,000 bbls. Oil Cake, 2/6; 1,000 bbls. Pork, 2/6; 500 bbls. Oil, 22/6; 500 bags Terre Japonica, 20/; bas. Bacon, 22/6. To Bremen, 70 hhds. Tebacco, 12/6; to bales Cotton, id. The receipts at the Sub-Treasury are \$169,133; Paid,

\$17,395; Balance, \$4,428,969. The Exchanges at the Clearing-House were \$14,786,455.

which shows a much reduced amount of transactions. The bids for the Albany City loan of \$300,000 6 F cent

vere opened to-day. A large portion of the amount was bid for at par to 4 F cent. premium, which is as well, in the present state of the money market, as could have been anticipated. The steamer to-morrow will take some \$800,000 or \$300,000 in gold bars. Some sales of bars were made at a

low figure to-day, the supply being larger than the de-mand. A considerable portion of the above amount con-sists of bars left over from the previous California steamers. A letter from the Superintendent of the McCulloch Mine,

dated July 21, says:

We continued to frive along the hanging wall until We continued to the meaning and to cet through the vein at 130 feet level, and have cut 14 feet through clean troops ore, and no foot wall yet, and this is opposite the winze from the 90 feet level, giving us a vein standing of at least 14 feet thick from level to level, being the large control of the winze was as nince the

est and best course of brown ore ever seen since Flood." The Cleveland and Toledo Road, it is stated, has already earned the semi-snnnal 5 P cent. dividend due next October. The cholera will probably exhibit its of

feets upon the July earnings of all the Western Roads. The June receipts of the Cleveland and Toledo were in round numbers \$50,000, against \$25,000 last year. Notwithstanding the depression in Railroad matters, we hear that the Central Ohio Co. sold 400 shares of their

stock to-day at 90. This road is completed 110 miles from Columbus, Ohio, eastwardly. Another portion will be completed in September.

The Albany Evening Journal takes the same ground in regard to the New-York Central Dividend that we did.

in regard to the New-York Central Dividend that we did. It says:

The earnings of the road for fifteen months, as will be seen, amounted to \$6.809,306 33, which is over \$450,000 a month. When the road shall have completed its second track from \$9.700 uses to Buffalo, and be prepared promptly to do the business that offers, its earnings will so much exceed \$350,000 a month as to reach an aggregate of \$6.300,000 or \$7.000,000. This sum, after allowing 30 \$\mathbf{v}\$ cent, for expenses, will pay the interest on its bonds, contribute the sum required annually to retire its bonded debt, and leave 10 \$\mathbf{v}\$ cent, for expenses, will pay the interest on its bonded. This is all that has been anticipated or that is desirable.

In their solicitude to put the Central road in the best possible condition, at an early day, so that all requirements upon it, as well for freight as for passengers may be promptly met, the Company have devoted the last six menths carnings of the road to the purchase of Rolling Stock and to construction.

promptly met, the Company have devoted the last six months earnings of the read to the purchase of Rolling Stock and to construction.

To repay the moneys thus borrowed the Board issued Bonds which, in the depressed condition of railroad securities, could not be negotiated without a sacrifice which a perfectly sound and prosperous Company ought not to make.

There is, after declaring a four per cent, dividend from the earnings of the last six months, a surplus of \$264\$ 343 23 in the Treasury. By a sacrifice of this surplus, in Wallst., mency might have been obtained to pay the dividend. But is it not better, instead of submitting to that loss, that the stockholders should receive from this surplus, interest on their dividend, until, when things right up, the Bonds of the Company can be negotiated for what they are intrinsically worth?

The time will come—and at no distant day—whan New-York Central? per cent. Bonds will not only be sought for, but command a premium. When we remember that but a few years ago panies depressed New-York State 6 per cent. Bonds 20 per cent. below par, it requires but little sagacity and small patience to await the return of a tide that ebbs and flows through Wall-st. like a maelstrom.

In pecuniary stampedes the good and bad are confound-

little segacity and small patience to await the return of a tide that ebbs and flows through Wall-st. like a maelstrom.

In pecuniary stampedes the good and bad are confounded. The strong goes down with the weak. In such times little regard is had to the real value of what passes through the Stock Board. Brokers, like farmers have their harvests, but unlike farmers, they profit equally by the rise and fall of their commodities. More money has been made in Wall-st. by the depression of stocks, during the last three months, than had been made during the preceeding nine months. The city was prepared for all this by the vast amount of Railroad Securities invited or taken into the street. It has been apparent for months, that railroad enterprises must collapse. It was certain that such an amount of bonds—good, doubtful and bad—could not be cerried. The cricis happened just as the Bonds of the Central Road were offered. This gave the "Bears" an advantage which was caught at voraciously. Strong men have been laboring from the beginning, to depress Central Road Stock. When the Bonds were first advertised, a Broker announced in the Board that they would be sold at 93. And during the last week it was represented through Wall st. that the Central Road had a large deating debt and was borrowing money at two per cent. a month, while in fact the Company has no floating debt and has never submitted to a dollar's shave. But the falsehood, thrown upon a feverish market, had the desired effect. The stock fell off, and those who yielded te their necessities or their fears, made large sacrifices.

These was read the statement in another column will not doubt the value of Central Railroad Stock, or be at all disturbed about their investments in that Company. It is the great American thoroughfare. Though doing well now, it is being put into a condition to do much better. Many who have made money by running down the Stock will now become purchasers, and make still more money by its recovery. And whatever is done, or left undone in Wa
